

**NEW S2 HOME LEARNING PROGRAMME**

June 2020

Please find below an overview of our home learning programme for learners moving into S2. This is not an exhaustive list and may not cover all available activities, but hopefully gives you an indication of what has been set in each subject. Please note that it is not always possible to give a mark or grade for every task submitted and often feedback may be in the form of comments only. An S2 Home Learning Curriculum has been developed to support young people to engage in learning across the curriculum, together with a suggested timetable to support the daily routine and structure.

Course	Topic	Method/Platform	Frequency	Teacher
Art & Design	Expressive Art Skill Building: variety of observational drawing tasks. Each drawing will take a minimum of 1hour, however they can be worked on for longer to refine the piece.
