- ▶ All SQA centres are responsible for providing assessment arrangements for disabled candidates and/or those identified as having additional support needs.
- ▶ Assessment arrangements allow these candidates, access to appropriate arrangements without compromising the integrity of the assessment. Candidates are individuals with a diverse range of needs and it is important that the individual needs of the candidates in **each subject** area be taken into account when considering the most appropriate arrangements.

ASSESSMENT ARRANGEMENTS

These are based on:

- ▶ Candidates for whom assessment arrangements are provided should potentially have the ability to achieve national standards, but be unable to do so using the published assessment arrangements for the particular qualification.
- ▶ The integrity of the qualification **must** be maintained.
- ▶ Assessment arrangements should be tailored to meet a candidate's individual need.
- ▶ Assessment arrangements should reflect, as far as possible, the candidate's normal way of learning and producing work.
